

COETAIL

A COMMUNITY APPROACH TO LEARNING

Allow yourself to fail, often

Dream big and ask "Why not?"

Step outside your comfort zone

Believe in the power of community

Choose to be vulnerable

Initiate and embrace change

Be comfortable not knowing what is going to happen

Empower and inspire those around you

Model life-long learning

Question the way you have always done it

Be open to experimenting with new potentials

Challenge yourself to constantly transform

Don't wait until you are an expert to introduce something

See yourself as a co-learner, not a teacher

Move into your students' world, even if it's foreign territory

Believe you can learn anything, given the right attitude and effort
